# SUMMER 2023 studio art course!

Tarot card project by Owen Canter

ARST 1550 Foundations: Digital Arts I

NTC Late Summer
July 3 - August 4
MTWTF 9-10:30 am

Prof. Kevin H. Jones

This course introduces students to different aspects of design in the digital realm from digital imaging to time-based media. Students will learn the basics of digital imaging, 2D animation, video editing, and the fundamental principles of color and composition. The course will also explore the history and evolution of digital art, as well as its impact on contemporary culture and society. Students will use industry-standard software, such as Photoshop, Illustrator, After Effects, and Premier during this class. *Credit Hours:* 3
