

SPECIAL MAYMESTER CERAMICS COURSE

MAY 15 – 26, 3 CREDITS, ARST 3020-09

RAKU POTTERY INTENSIVE

This will be an immersive experience in the fast - firing process of Raku pottery. The studio course will include the history and contemporary practice of the Raku ware. Students will work constructing classic forms of tea bowls, water pots and vases, using special raku clay and glazes. Clay and glaze experimentation and daily firing of ware in gas and wood fired kilns provide insight into the role of spontaneity, freedom and fire in ceramic processes. Open to all - no pre-requisites needed. See Prof. Jernegan for more info.
